

ICC LAUNCHING PROTOCOL

LAUNCHING OF BOATS FROM 7:15

LRC will only be letting one Viii on the pontoon at any time, the UTS end. boat with bow to Bridge. LRC is providing a pontoon Marshall, should clubs fail to follow directions they will be placed at the end of the queue.

- Boats can launch anytime up until 655 or following the order of race from 715
- No waiting on timber deck, LRC lift of rack and walk out, other clubs wait at gate until called.
- LRC can place their blades on the UTS end of ramp
- Other Clubs to the Bridge end of the ramp
- NO BLADES on flat deck as PLC will be using this and needs to be kept free for walking quickly.
- NO Adjusting of anything on the pontoon, blades in and push off.

PLC have 40 girls launching between 700 & 730 and cannot be moved so we have to work with them.

When returning move quickly, blades on ramp only. Leave pontoon free of blades. LRC will wash but not dry boats to keep the timber deck free. Other clubs do not use LRC timber deck to wash or section boats

Many thanks & Happy Racing
